

In order to ensure that all residents can participate in ACHD's Community Health Survey, we have extended the deadline for submissions until Friday, November 8, 2019.

This survey is open to all residents of Allegheny County over 18 years of age. By taking the survey, you are helping the Department identify the key needs of Allegheny County communities, and the results will be used to identify key issues for ACHD and partner organizations to focus on over the next five years.

The online survey can be accessed here: [www.alleghenycounty.us/cha](http://www.alleghenycounty.us/cha). Paper versions are also available at multiple ACHD locations. Feedback is critical, and we ask that you please share this information on your digital platforms throughout October.
