Dear Becky,

The **eCode Search™ App** is getting some new enhancements! These latest updates are just part of our ongoing commitment to enhancing all of the tools and services connected to our eCode360 platform, so you can always enjoy a user experience that's second to none.

Tap into the power of the eCode360 platform

With the eCode Search App on your internet-connected phone or tablet, you have a powerful way to remotely access and search General Code's robust eCode360 Library. That's more than 2,100 municipal Codes from 30 States and Canada. And because all of our searchable Codes are updated simultaneously with eCode360, you know the information you're searching for is accurate and clearly presented, no matter what device you're using.

Check out what's new!

Faster-loading search results

Search for Codes by state

Support for the newest devices

The *eCode Search* App has always been built for speed. Our latest enhancement continues to pick up the pace by enabling current search results to load and display faster.

In addition to searching for Codes by name and ZIP Code, you can now search for Codes by state. Simply click the map icon and select a state to view all of the Codes in that state.

To ensure that the *eCode Search* App runs reliably for every user, we now provide official technical support for the app on all the latest mobile devices and operating systems, including the iPhone® X, Android® 8 and iOS 11®

Don't have the app? Download it now – it's FREE!

Join the *eCode360* celebration!

[Visit our 10th Anniversary page](#) to learn about all of anniversary-year eCode enhancements and other great information including client stories, online training opportunities– and more!
